Address: **Pewaukee**  
Price: **1900.00 \$**

This beautiful stove is still on the crate base. Bought it for a house that was not built. It is porcelain enamel black unlike the photo provided.

It has a “clean burn” technology with a unique high capacity baffle system for preheating secondary combustion air for re-burning.

It has a “floating firebox” designed with steel brick-support rails that allows key parts to freely expand and contract thus reducing metal fatigue and adds years of life. Cast iron is wrapped around the steel firebox.

The top has swing-out cast iron warming plates concealing a cook-top just in case there is a long power outage.

I have an electronic brochure I can send via email.

Stove was \$3100 at the time of purchase. Asking \$1900.

Please call 262.611.2326 or text me at 262.611.2326
